Ben -

Great draft, I have very few proposed changes.

My mark-up is zipped with the same password as the one Jennifer sent me. My proposed changes are inserted inline with tracking on and my comments / questions are in [brackets] and at times refer to words highlighted in yellow. There is one proposed change to Figure 4 to add a USER IF 105 to 94 and the details are in the text markup that references the figure. There is a comment just before the claims that you may want to read first. You should be able to accept any changes you like and reject the comments to get back to a clean document.

<< File: 14604RNUS01U First Draft.zip >> Dear John:

Please find attached a first draft of the above-referenced application. The zip file is protected with the password we discussed earlier today. If you have any problems opening the attached file, please let me know. Please meet with your co-inventors and review the application and drawings carefully for accuracy and completeness, making any changes, additions, or corrections, if any, directly on the application (or electronically with changes tracked).

Please recall that the application must clearly explain the best mode of

RE: First Draft of 14604RNUS01U (our file 7000-112)

practicing the invention for which protection is desired. Also, the application must explain to an individual of ordinary skill in the art how to make and use the invention. After reviewing the application, please forward any comments to Ben Withrow. We will then update the draft and send it back to you with formal paperwork for your signature. After receipt of the signed paperwork from you, we will file the application.

Please do not hesitate to contact Ben Withrow or me should you have any questions regarding the application. Thank you for allowing us to be of service to you in this matter and for your prompt attention to this matter.

Best regards,

Jennifer J. Rush
